

TRANSPORTATION PLANNER

Exciting opportunity to lead the charge on meeting the future transportation demands of our community! This position will develop, coordinate, and implement the Integrated Transportation Plan (ITP), and facilitate and support a community advisory committee, and other outside agencies on transit and transportation initiatives. Our ideal candidate will be collaborative, a strategic thinker with strong communication skills, and will have the ability to stay focused while multi-tasking.

Basic Qualifications:

- Bachelor's Degree or higher in urban and regional planning or transportation engineering
- 7 years' experience in planning processes related to transportation programs
